

**JOHN CHIANG**  
*California State Controller*

November 29, 2011

**To the Citizens, Governor, and Members  
of the Legislature of the State of California:**

I am pleased to submit the 63<sup>rd</sup> edition of the *Streets and Roads Annual Report*. This report, which covers the fiscal year ended June 30, 2010, offers public officials and interested taxpayers useful information regarding funding for street and road expenditures throughout the State. The figures and tables contained in this report reflect monies made available and expended for the construction and maintenance of California's vast network of streets and roads.

Following are highlights of the financial activities relating to California's streets and roads for the fiscal year ended June 30, 2010:

- Approximately \$6.7 billion was made available to California cities and counties for street and road purposes, a decrease of \$86 million (1.3%) from the 2008-09 fiscal year.
- Cities and counties reported combined street and road expenditures of \$6.2 billion, which is a decrease of \$468 million (7.0%) from the 2008-09 fiscal year.

I wish to join with staff members of the Division of Accounting and Reporting and the Division of Audits in extending our sincere appreciation to the many local government officials who contributed to this report.

Sincerely,

*Original signed by:*

JOHN CHIANG  
California State Controller

# Introduction

California Streets and Highways Code section 2151 requires each city and county to file an annual report of expenditures for street or road purposes with the State Controller's Office on or before October 1 of each year. Streets and Highways Code section 2154 requires the California State Controller's Office to distribute a compilation of those reports annually. The State Controller's Office prepared the financial tables presented in this report from data submitted by each city and county in its report; the data in these tables has not been audited.

Fifty-eight counties and 479 cities filed reports in compliance with Streets and Highways Code section 2151. The city of Rolling Hills does not receive Highway Users Tax apportionments and therefore does not file an annual report with the State Controller's Office. Most cities and counties use a July 1 through June 30 fiscal year. The cities of South Lake Tahoe and Huntington Beach use an October 1 through September 30 fiscal year.

The *Accounting Standards and Procedures for Counties* manual, published by the State Controller's Office pursuant to Government Code section 30200, requires counties to report on a modified accrual basis. Cities maintain their records on either a cash basis or a modified accrual basis. With respect to entities using the modified accrual basis, the term "restricted balance" used throughout this report refers to the excess of current assets over current liabilities.

Monies made available to local agencies for street or road purposes are generally derived from federal, state, and local funds. Accordingly, this report lists all monies made available from such sources as Highway Users Tax apportionments (gas tax revenues); district road taxes and special assessments; street, road, and bridge taxes; and proceeds from the sale of bonds restricted exclusively for expenditures on streets and roads.

In addition, some funds expended for street and road purposes are derived from sources other than the reporting agency's treasury. Table 14 details street and road expenditures made by other governmental agencies and private parties. The expenditures presented in Table 14 are not included in the expenditure amounts of other tables in this report.

## City and County Summary

As shown in Figure 1, federal, state, and local funds made approximately \$6.7 billion available to California cities and counties for street and road purposes during the 2009-10 fiscal year, a decrease of \$86 million (1.3%) from the prior fiscal year.

Fiscal Year 2009-10

---

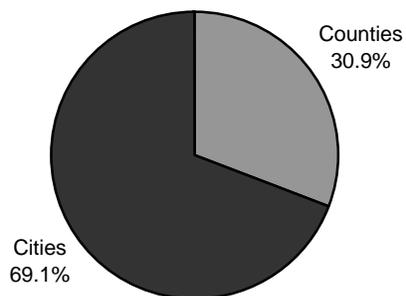

Figure 4 illustrates the changes in total monies made available from the 2005-06 fiscal year to the 2009-10 fiscal year. During this period, total funds increased by approximately \$933 million (16.2%), state funding increased by \$964 million (60%), federal funding increased by \$332 million (73.0%), and local funding decreased by \$363 million (9.8%). The total amount of local funds made available decreased from 64.3% in the 2005-06 fiscal year to 49.9% in the 2009-10 fiscal year.

Five-Year Summary

(Amounts in thousands)

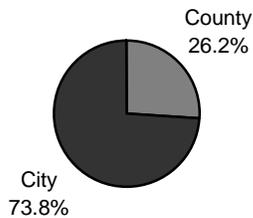

Sources of monies made available for cities and counties are summarized on pages x and xiv, respectively. Detailed statements of monies made available for each city and county are presented in Tables 3, 4, 9, and 10 of this report.

## City and County Expenditures

**Figure 6**

### City and County Expenditures

Fiscal Year 2009-10

Cities and counties reported combined expenditures of \$6.2 billion, as shown in Figure 1. This amount represents a decrease of \$468 million (7%) from the 2008-09 fiscal year. Figure 6 shows that city expenditures represented 73.8% of the total and county expenditures represented 26.2%.

Figure 7 provides a breakdown of expenditures by classification for the 2009-10 fiscal year. This figure shows that, of the total expenditures reported by cities and counties, 46.7% was spent for construction and rights-of-way, 40.8% for maintenance, 11.6% for engineering and administration, and 0.9% for other expenditures. “Construction” includes construction of streets and roads, signals, safety devices, streetlights, pedestrian ways, bike paths, and storm drains, as well as street reconstruction and storm damage repair. “Maintenance” includes patching, overlay, and sealing; maintenance of street lights and traffic signals; and snow removal and storm damage repair.

During this period, total expenditures have increased by approximately \$660 million (11.8%) since the 2005-06 fiscal year. Maintenance expenditures increased by \$186 million (7.9%). Expenditures for construction increased by \$453 million (18.3%). Administration and other expenditures increased by \$22 million (2.9%).

**Figure 7**

### Expenditures by Classification

Fiscal Year 2009-10

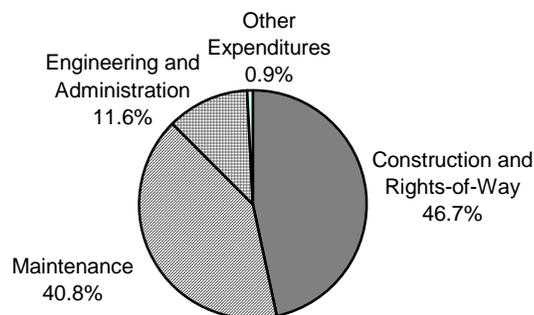

Figure 8 summarizes street and road expenditures by funding source. Streets and Highways Code sections 2105 and 2106 states that funds may be used for any street or road purpose. Section 2104 restricts funds for county road use, section 2107 restricts funds for street purposes, and section 2107.5 restricts funds for city administration and engineering and, in special situations, for right-of-way acquisition and street system construction. Discretionary funding sources provided by cities and counties represent 20.6% of total expenditures. Nondiscretionary expenditures have restricted use, while discretionary expenditures are not restricted. County contributions made by counties to cities are for nondiscretionary purposes and are reported separately from the other nondiscretionary total.

Figures 14 and 20 further summarize expenditures by cities and counties. Tables 5, 6, 11, and 12 present detailed expenditure statements for each city and county in this report.

## Snow Removal Expenditures

The State provides for reimbursement of a limited amount of snow removal costs incurred by local entities. Streets and Highways Code section 2152(c) requires cities and counties to file a schedule of expenditures for snow removal. Fifty percent of a city's expenditures in excess of \$5,000 are reimbursable from state funds. As an example, the City of Truckee's report shows actual snow removal costs of \$2,644,228. The actual amount minus \$5,000 equals \$2,639,228; 50% of \$2,639,228 totals \$1,319,614. Cities with less than \$5,000 in snow removal expenditures receive no reimbursement. No maximum reimbursement amount applies for city expenses.

Counties may claim 80% of their expenditures in excess of \$5,000. However, if the total of all county claims submitted exceeds \$7 million, the amount paid to each county is prorated using a formula based on the claimed amounts submitted by all counties in the preceding three years.

Figure 10 shows the reimbursement amounts payable to those cities and counties reporting snow removal expenditures. Actual snow removal expenditures totaled \$31,360,356 for the 2009-10 fiscal year. City snow removal expenditures accounted for \$9.8 million while county snow removal expenditures accounted for \$22 million. The details for snow removal expenditures reported by cities and counties are listed under "Maintenance" in Table 5 and Table 11, respectively.

## City Summary

### Monies Made Available to Cities

A total of \$4.6 billion was distributed to California cities for street purposes during the 2009-10 fiscal year, a decrease of approximately \$435 million (8.6%) from the prior fiscal year.

Figures 11 and 12 present a summary of those monies by source. Details for each city are presented in Tables 3 and 4. Figure 13 illustrates the changes in monies made available from the 2005-06 fiscal year to the 2009-10 fiscal year. During this period, total monies made available increased by approximately \$313 million (7.3%).

Monies made available for city street purposes came from state, federal, and local sources. The majority of state funding came from monies allocated from the Highway Users Tax Fund. Most of the local revenue came from local general fund monies.

**Figure 12**

**Monies Made Available to Cities by Source**

Fiscal Year 2009-10

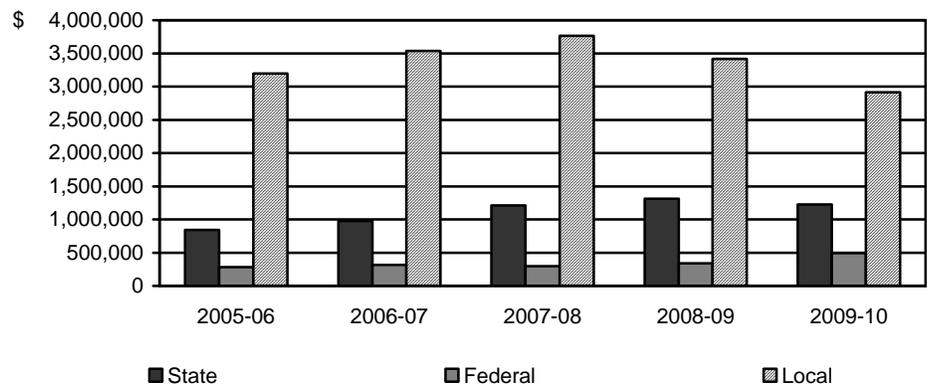

During the past five years, the percentage of local sources of monies made available for city street purposes has varied from 63% to 74% of the total. The percentage of state sources has varied from 20% to 26%.

**Figure 13**

**Monies Made Available to Cities by Source**

Five-Year Summary  
(Amounts in thousands)

## City Expenditures

Expenditures related to building or maintaining city streets during the 2009-10 fiscal year totaled \$4.6 billion, a decrease of approximately \$391 million (7.8%) from the 2008-09 fiscal year.

Figures 14 and 15 present a summary of street-purpose expenditures by classification. Tables 5 and 6 provide details for each city. Figure 16 illustrates the period from 2005-06 to 2009-10. During this period, total expenditures increased by approximately \$371 million (8.8%).

<sup>1</sup> This amount includes only that portion of engineering expenditures not charged directly for construction and maintenance work. All other engineering costs were charged directly to specific projects.

Construction and rights-of-way acquisition made up the majority of city street expenditures. Within this category, street reconstruction comprised the major expenditure.

**Figure 15**

**City Expenditures by Classification**

Fiscal Year 2009-10

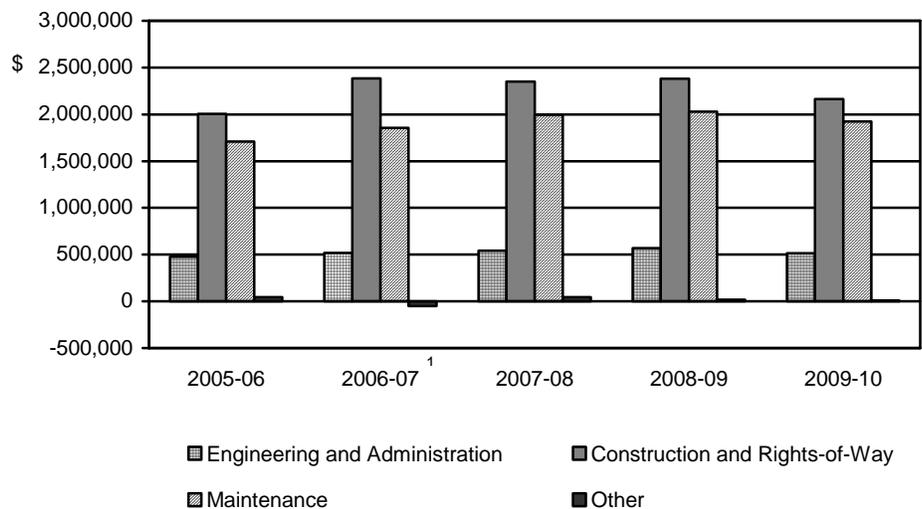

During the past five years, the percentage of construction and rights-of-way expenditures for city streets has varied from 47% to 51% of total expenditures. The percentage of maintenance and other expenditures has varied from 38% to 42% of total expenditures.

**Figure 16**

**City Expenditures by Classification**

Five-Year Summary

(Amounts in thousands)

<sup>1</sup> Approximately 131 cities reported a negative fund adjustment in the 2006-07 fiscal year.

## County Summary

### Monies Made Available to Counties

During the 2009-10 fiscal year, California counties received a total of \$2.1 billion for road purposes, an increase of \$349 million (20.3%) from the 2008-09 fiscal year, as shown in Figure 17. The amount reported represents deposits into the various county road-purpose funds. Figures 18 and 19 present monies made available to California counties by source.

Monies made available for county road purposes came from state, federal, and local sources, with state funding being the major source. Allocations from the Highway Users Tax provided most of the state funding.

**Figure 18**

**Monies Made Available to Counties by Source**

Fiscal Year 2009-10

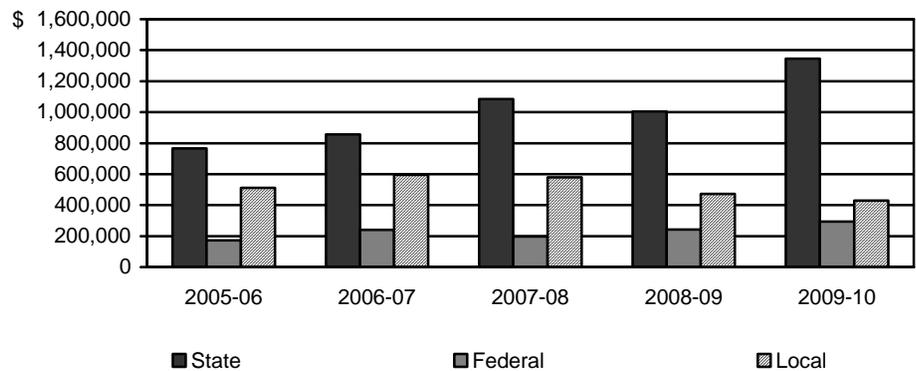

During the past five years, the percentage of state monies made available for county road purposes has varied from 51% to 65% of the total. The percentage of local money sources has varied from 21% to 35%.

**Figure 19**

**Monies Made Available to Counties by Source**

Five-Year Summary  
(Amounts in thousands)

**County Expenditures**

Expenditures for county roads for the 2009-10 fiscal year totaled \$1.6 billion, a decrease of \$77 million (4.5%) from the prior year. Figures 20 and 21 present a summary of road-purpose expenditures by classification. Details for each county are provided in Tables 11 and 12. Figure 22 illustrates the changes in expenditures from the 2005-06 fiscal year to the 2009-10 fiscal year. During this period, total expenditures increased by approximately \$289 million (21.4%).
