Following are highlights of the financial activities of California's streets and roads for the fiscal year ended June 30, 2003:

- Approximately \$4.9 billion was made available to California cities and counties for street and road purposes, a decrease of \$29 million (0.6%) from the 2001-02 fiscal year.
- Cities and counties reported combined street and road expenditures of \$4.8 billion, which is a decrease of \$205 million (4.1%) from the previous fiscal year.

I wish to join with staff members of the Division of Accounting and Reporting and the Division of Audits in extending our sincere appreciation to the many local government officials who contributed to this report.

# Introduction

California Streets and Highways Code Section 2151 requires each city and county to file with the State Controller's Office, on or before October 1 of each year, an annual report of expenditures for street or road purposes. Streets and Highways Code Section 2154 requires the California State Controller's Office to annually distribute a compilation of those reports. The financial tables presented in this report were prepared from data submitted by each city and county in its report.

Fifty-eight counties and 476 cities filed reports in compliance with Streets and Highways Code Section 2151. The city of Rolling Hills does not receive Highway Users Tax apportionments and, therefore, does not file an annual report with the State Controller's Office. With two exceptions, all cities and counties use a July 1 through June 30 fiscal year. The cities of South Lake Tahoe and Huntington Beach use an October 1 through September 30 fiscal year.

The *Accounting Standards and Procedures for Counties* manual, published by the State Controller's Office pursuant to Government Code Section 30200, requires counties to report on a modified accrual basis. Cities maintain their records on a cash basis or a modified accrual basis. With respect to entities using the modified accrual basis, the term "restricted balance" used throughout this report refers to the excess of current assets over current liabilities.

Monies made available to local agencies for street or road purposes are generally derived from federal, state, and local funds. Accordingly, this report lists all monies made available from such sources as: Highway Users Tax apportionments (gas tax revenues); district road taxes and special assessments; street, road, and bridge taxes; and proceeds from the sale of bonds restricted exclusively to expenditures on streets and roads.

In addition, some funds expended for street and road purposes are derived from sources other than the reporting agency's treasury. Table 14 lists street and road expenditures made by other governmental agencies and private parties. The expenditures presented in Table 14 are not included in the expenditure amounts of other tables in this report.

## City and County Summary

As shown in Figure 1, approximately \$4.9 billion was made available to California cities and counties for street and road purposes during the 2002-03 fiscal year, a decrease of \$29 million (0.6%) from the prior fiscal year.

## City and County Expenditures

**Figure 6**

### City and County Expenditures

Fiscal Year 2002-03

Cities and counties reported combined expenditures of \$4.8 billion, as shown in Figure 1. This is a decrease of \$205 million (4.1%) over the 2001-02 fiscal year. Figure 6 illustrates that city expenditures represented 73.7% of the total and county expenditures represented 26.3%.

Figure 7 provides a breakdown of expenditures by classification for the 2002-03 fiscal year. This figure shows that, of the total expenditures reported by cities and counties, 43.9% was expended for construction and rights of way, 42.0% for maintenance, 11.8% for engineering and administration, and 2.3% for other expenditures. "Construction" includes construction of streets and roads, signals, safety devices, streetlights, pedestrian ways, bike paths, and storm drains, as well as street reconstruction and storm damage repair. "Maintenance" includes: patching, overlay, and sealing; maintenance of streetlights and traffic signals; and snow removal and storm damage repair.

Total expenditures have increased by approximately \$969 million (25.3%) since the 1998-99 fiscal year. Construction expenditures, which increased by \$334 million (18.8%), accounted for most of the increase in total expenditures. Expenditures for maintenance increased by \$377 million (23.0%), and administration and other expenditures increased by \$258 million (61.3%).

**Figure 7**

### Expenditures by Classification

Fiscal Year 2002-03

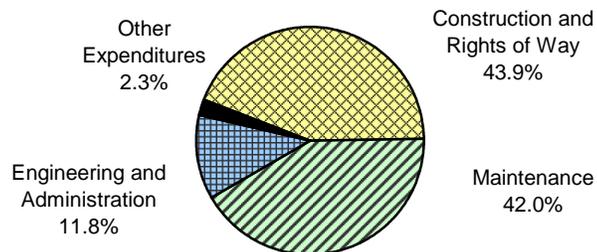

Figure 8 summarizes street and road expenditures by funding source. Streets and Highways Code Section 2105 and 2106 funds may be used for any street or road purpose. Section 2104 funds are restricted for county roads, Section 2107 funds are restricted for street purposes, and Section 2107.5 funds are restricted for city administration and engineering and, in special situations, for right-of-way acquisition and street system construction. Discretionary funding sources provided by cities and counties represent 24.7% of total expenditures. As referenced in Figure 8, nondiscretionary expenditures are those whose use is restricted, while discretionary expenditures are not restricted. County contributions made by counties to cities are for nondiscretionary purposes but are not included in the nondiscretionary total.

Expenditures by cities and counties are further summarized in Figures 14 and 20. Detailed expenditure figures for each city and county are presented in Tables 5, 6, 11, and 12.

## Snow Removal Expenditures

The State provides for reimbursement of a limited amount of snow removal costs incurred by local entities. Streets and Highways Code Section 2152(c) requires cities and counties to file a schedule of expenditures for snow removal. Fifty percent of a city's expenditures in excess of \$5,000 is reimbursable from state funds. As an example, the City of Truckee's report shows actual snow removal costs of \$1,457,101. The actual amount minus \$5,000 equals \$1,452,101; 50% of \$1,452,101 is \$726,051. Cities with less than \$5,000 in snow removal expenditures receive no reimbursement. There is no maximum reimbursement amount for cities.

Counties may claim 80% of their expenditures in excess of \$5,000. However, if the total of all county claims submitted exceeds \$7 million, the amount paid to each county is prorated using a formula based upon the claimed amounts submitted by all counties in the preceding three years.

Figure 10 shows the reimbursement amounts payable to those cities and counties reporting snow removal expenditures. Actual snow removal expenditures totaled \$14,849,860 for the 2002-03 fiscal year. City snow removal expenditures accounted for \$4.6 million and county snow removal expenditures accounted for \$10.2 million of the total \$14.8 million reported. The details for snow removal expenditures reported by cities and counties are listed under "Maintenance" in Table 5 and Table 11, respectively.

## County Summary

### Monies Made Available to Counties

During the 2002-03 fiscal year, California counties received a total of \$1.3 billion for road purposes, an increase of \$64 million (5.3%) from the 2001-02 fiscal year, as presented in Figure 17.
