CA Controller Publishes 2018 Payroll Data for Special Districts

SACRAMENTO — State Controller Betty T. Yee today published 2018 self-reported payroll data for California special districts on the [Government Compensation in California](#) (GCC) website. The data cover 159,337 positions and a total of more than \$8.93 billion in 2018 wages and nearly \$2.47 billion in health and retirement costs for 3,074 special districts.

Users of the site can:

- View compensation levels on maps and search by region;
- Narrow results by name of the district or by job title; and
- Export raw data or custom reports.

Special districts are government entities created by a local community to meet a specific need. Data for 2018 show nearly half of the top 10 districts by total wages are in health care, with the remainder a mix of utility, transit, water, fire, and sanitation districts. The top 10 individual salaries reported all are in health care districts.

California law requires cities, counties, and special districts to annually report compensation data to the State Controller. The State Controller also maintains and publishes state and California State University salary data. A list of districts that did not file or filed incomplete reports is available [here](#).

Since the GCC website launched in 2010, it has registered more than 11 million pageviews. The site contains pay and benefit information on more than two million government jobs in California, as reported annually by each entity.

As the chief fiscal officer of California, Controller Yee is responsible for accountability and disbursement of the state's financial resources. The Controller has independent auditing authority over government agencies that spend state funds. She is a member of numerous financing authorities, and fiscal and financial oversight entities including the Franchise Tax Board. She also serves on the boards for the nation's two largest public pension funds. Elected in 2014 and reelected in 2018, Controller Yee is the tenth woman elected to a statewide office in California's history. Follow the Controller on Twitter at [@CACController](#) and on Facebook at [California State Controller's Office](#).
